UNIT SUMMARY

Quantity						
Unit Designation						
Model No.						
Total Cooling						
Sensible Cooling						
Air Ent. Evaporator						
Air Lvg. Evaporator						
Heating Input						
Heating Output						
CFM/ESP						
EER/SEER						
Electrical						
Minimum Ampacity						
Min.-Max. Breaker						
Net Unit Weight						
Accessory						
Catalog Form Number						

ACCESSORIES:

NOTES:

**FEATURES FOR (-)AND- CONDENSING UNITS
1 1/2 TO 5 NOMINAL TON [5.28 TO 17.6 kW]**

- High Efficiency
- Scroll Compressor
- All refrigerant connections are on the exterior of the unit, located close to the ground for neat appearing installations.
- Powder painted galvanized steel cabinet. The full wraparound louvered grille protects the coil from damage.
- Copper Tube—Aluminum Fin coils are used on all models.
- The control box is located in the top corner of the cabinet providing easy access through a service panel.
- Service valves are standard on all models.
- Power and control wiring are kept separate.
- Hard Start Kits standard on all A-Series models.
- High and Low Pressure Controls standard on all A-Series models.
- Liquid Line Filter Drier standard on all A-Series models.

- Separate compressor compartment for easy service access.
- Drawn, painted base pan for extra corrosion resistance and sound reduction.
- Factory installed high and low pressure control.
- Certified and rated under ARI Standard 210.
- U.L. listed
- Factory Installed Compressor Time Delay Control.
- Factory run tested prior to shipment.
- Factory limited warranty on parts as follows:
 Condenser Coil leaks caused by
 factory defects.....Five (5) Years
 Compressor
 A-Series.....Eight (8) Years
 B-Series.....Seven (7) Years
 Any Other PartFive (5) Years

FIELD INSTALLED ACCESSORIES

Low Ambient Control

SPECIAL NOTES ON EQUIPMENT:

Before proceeding with installation, refer to installation instructions packaged with each model, as well as complying with all Federal, State, Provincial, and Local codes, regulations, and practices.
